

Information Systems Security & Compliance
Certificate

Effective Fall 2018

Student:

Advisor:

Major:

Students who complete this certificate will focus on protecting digital assets of an organization. The certificate examines security through two lenses: auditing compliance and managing risk. Compliance from an auditing perspective focuses on internal and general controls to achieve regulatory and organization guidelines. The second lens revolves around frameworks and strategies for managing digital risk in the IT enterprise using a combination of policy and technical tools (s)-2.3 (n)2 [ttatance
